### Comments:

Aug 5 - Rest Lake and Canvasback Lake for shorebirds, and viewing from the observation blind offers a view not available from the road.

Aug 8 - I saw one lone American White Pelican today on Canvasback Lake left, no doubt from the 80+ Pelicans that were on the refuge last week. Roger

Aug 10 - Aug 10: I saw the Olive-sided Flycatcher along the Canyon Road/entrance road to the refuge. The Peregrine Falcon was seen at Marker #12. Roger

Aug 12 - 120+ Dowitcher maybe one short-bill dowitcher based on call

Key	
**	Uncommon
***	Occasional
****	Rare
ac	Accidental
Cu	Only at Carty Unit

Current total weekly sightings: 78
